

ICC Western Europe – The Trade Event for the Concrete and Precast Industry – 03./04.11.2021 – Bonn

Conference program

3rd November 2021 / Opening Session

09:30	Christoph Gröner	Prefabrication – the future for builders, project developers, planners, architects and entrepreneurs
10:30		Round Table Discussion with Christoph Gröner about the future of prefabrication

Sponsored presentations during the break in the exhibition are: **iTheses**

3rd November 2021 / Digital Building Tomorrow

12:30	Prof. Peter Mark & Dr. Patrick Forman	Fast construction with adaptive modular prefabrication
	Prof. Michael Einfeld	Advantages and fields of application of BIM models in the production of precast elements
	Benno Strack	Model-based data exchange with IFC4precast – Status Quo
	Thomas Friedrich	Digitalisation of the production process

Sponsored presentations during the break in the exhibition are: **ecoratio** **Wi SOLAR**

3rd November 2021 / Concrete and Precast Technology

15:30	Prof. Ludger Lohaus & Tobias Schack	Living architectural concrete with planned colour tone deviations
	Prof. Jürgen Oecknick & Michael Erhardt	Decorative precast concrete facades – the way from the material concept to the final solution
	Prof. Marc Sanabra	Digitally Customized Hollow Core Slabs: Reducing Material Consumption and Increasing Margins

ICC Evening Event begins 19:00 Uhr mit der Band PRIME

4th November 2021 / BIM & Concrete Products

09:30	Henning Kortmann	Digital detection and sorting of faulty concrete products
	Dr. Justus Lipowsky	Automated masonry construction with robots
	Dr. Kais Mehiri	Smart board to enhance concrete block machines – new way for board characterization
	Dr. Gareth Robinson	BIM automation for box culvert and tank production

Sponsored presentations during the break in the exhibition are: **KOBRA** **BUILDING TRUST**

4th November 2021 / Ecology & Economy

12:30	Thomas Friedrich	Future-oriented project InnoLiving – economically and ecologically optimised building
	Prof. Harald Kloft	Re-thinking precast concrete construction with additive manufacturing technologies: lightweight, economical, sustainable

4th November 2021 / Markets Today and Tomorrow

15:00	Andreas Kreutzer	Market analysis concrete block pavement: Demand – customer groups – areas of application
	Peter Vahrenhorst	The dangers of digitization in concrete plants and how to strategize protective measures

Christoph Gröner, Managing Partner Gröner Group GmbH and Chairman of the Board CG Elementum AG (CEO), as keynote speaker, will afford insight into his vision of prefabrication of the future.

An in-person event for the concrete and precast concrete industry will again take place after a long while in Bonn, Germany, on 3rd and 4th November 2021. Originally scheduled for May 2020, it is now certain that this trade event with more than 75 exhibitors and an excellent conference programme on the topic of "Digital Construction" can finally take place after several postponements. We will ensure that the event will take place in a safe environment in compliance with any rules of the Corona Protection Ordinance applicable at that time and that finally personal networking opportunities will be possible in the industry again.

We look forward to receiving your registration - in advance online at www.iccx.org/western-europe/visitor-registration or on site at the registration desk in the Maritim Hotel in Bonn!
